SKILLS

- Manual Testing, Functional Testing, Regression Testing, Smoke Testing, API Testing
- Test Case Design
- Bug Reporting & Tracking
- SDLC & STLC, Scrum And Agile Methodology
- Selenium Basics, SQL Basics
- Postman, Apache, JMeter
- Programming Languages: HTML, CSS, JavaScript, Python
- Others Tools: Git, Vs Code, Microsoft Office, Jira, Pycharm
- Teamwork, Time Management & Effective Communication

LANGUAGES

- English (Fluent)
- Nepali (Fluent)

PROFILE

I'm a detail-oriented Junior QA professional passionate about software quality and user experience. Skilled in manual testing, test case design, bug reporting, and tools like Jira, Postman, and SQL, I enjoy identifying issues and helping deliver reliable, high-quality products.

CERTIFICATES

Quality Assurance (QA) Training 19th Nov,2024 - 3rd Feb,2025
Broadway Infosys Pvt Ltd
Certificate no. : B21212

EDUCATION

Bachelor in Computer Application (BCA) 2020--2025
Kathmandu Bernhardt College (TU Affiliated)
GPA: 3.19

PROJECT INVOLVED

- Manual Testing for Online Clothing Store**
Performed manual testing on a clothing e-commerce website to verify key features including login, product browsing, cart, and checkout.
- Automation Testing for DemoBlaze.com**
Developed and executed Selenium-based test scripts using Python for the DemoBlaze e-commerce site. Automated core functionalities such as product selection, cart operations, and user login to improve test efficiency. Maintained test logs, analyzed results, and ensured consistency of test cases for regression testing.
- Monkey Testing and Bug Reporting for Website**
Conducted monkey testing to identify unexpected crashes, navigation issues, and UI inconsistencies on website. Simulated random user behaviors to uncover hidden bugs beyond structured test cases. Documented and submitted detailed bug reports with severity levels, screenshots, and device/browser information.

CAREER GOALS

- Ensure software quality through effective web and mobile application testing.
- Stay updated with QA methodologies, automation tools, and industry best practices.
- Collaborate with agile teams to identify and resolve defects efficiently.
- Enhance user experience through manual and automated testing of functionality, UI/UX, and performance.
